Numb 2066

The London Gazette.

Published by Authority.

From Thursday September 3. to Monday September 7. 1685.

Rome, August 11.

WE have by the way of *Otranto* an account, that the Venetians have taken *Coron*, one of the Richeſt and moſt conſiderable places in the *Morea*; And that Captain-General *Moroſini* marched afterwards towards *Modon* and *Navarin*, which are about 30 miles from *Coron*. The Marquis *de Parella* parted from hence the 8th Inſtant after having taken leave of the Pope for *Croatia*, to Command the Italian Volontiers which are in Count *Leſlies* Army.

Lisbon, July 6. The Marquis *Balbiani* Envoy Extraordinary from the Duke of *Savoy*, had the 29th paſt his Audience of Leave of the Infanta, to which he was Conducted in the Kings Coach by the Introductor of Ambaſſadors. By a Veſſel arrived from the *East-Indies* we have an account, that the Count *d'Alvor* Viceroy of the *Indies* for this Crown, had with the aſſiſtance of *Aureng Zeb*, Emperor of the *Mogols*, reduced *Raya Sevagi* to ſuch a condition that he was forced to demand a Peace. We expect our Fleet from *Breſil* the beginning of the next month.

Madrid, August 16. They write from *Cadiz*, that they had advice by the Flota which arrived in that Port the 29th of the laſt month from the *Weſt-Indies*, That the Galions were at *Cartagenia* in *March* laſt, ſtaying there for the Plate, which was not yet brought from *Lima* to *Panama*, by reaſon the Pyrates which were in the South Sea, againſt whom the Viceroy of *Peru* was fitting out four Ships of conſiderable ſtrength.

Warſaw, August 17. The laſt Letters from *Leopol* told us, that the Crown General having taken a general review of the Poliſh Forces at *Gliniani*, which he found to be about 16000 Foot and 8000 Horſe, he gave orders for the Army to decamp the 29th paſt and to march to *Viſix* near the *Nieſter*, where they would ſtay till thoſe Troops that had not been yet able to joyn them, were come up. We have likewiſe an account that the Troops of *Lithuania* are in a Body and ready to march againſt the Enemy, but we do not know whether they will joyn the Forces of the Crown or act ſeperately. The Sieur *Mohila* General of the Coſſacks has drawn together about 8000 at *Niemirow*, where he expects orders from the King how to act. There is a report that the Moſcovites have defeated a great Body of Tartars in the *Ukrain*, and that they are refortifying *Czechrin*, and at the ſame time the Letters from *Moſcow* give us great hopes that the Czars will come into the League againſt the Turks. The King of *Poland* who is now at *Villa Nova* will begin the next week his journey towards *Ruſſia*.

Vienna, August 29. To the account we gave you in our laſt that the Duke of *Lorrain* had repaſſed the *Danube* with the Imperial Army near *Comorra* on the 24th Inſtant, we can at preſent only add that his Highneſs marches towards the Enemy, who have poſted between *Peſt* and *Vaccia*. Our Army is between 40 and 50000 ſtrong, and through the great care of the Count *de Rabata* Commiſſary-General, is plentifully ſupplyed with Proviſions, and the Soldiers are full of Courage. The Beſieged in *Eſperies* continue to make a very deſperate defence; They hung out the laſt week a White Flag, as if they deſired a Parley, but when the Officers, which General *Schultz* ſent to hear what they had to ſay, came near, they fired upon them, and ſome of them were killed; It is ſaid that General *Caprara* will be ſent with 12000 Men towards Upper *Hungary*; And in the mean time the Emperor has cauſed a general Pardon to be publiſhed there, in which Count *Teckeley* and two more are only excepted. The Biſhop of *Gran* has given a conſiderable ſum of Money towards the repairing the Fortifications of *Newheuſel*; The Gariſon which the Duke of *Lorrain* has put into that place conſiſts in 3500 men beſides 600 Hungarians. The Letters from *Cracow* tell us, that the Poliſh Army marched towards the *Nieſter* with deſign to deſtroy all the Country about *Caminiec*, thereby to deprive that Gariſon of the means of ſubſiſting; and that the Crown General had received advice that 12000 Turks commanded by *Selyman* Baſſa, had paſſed the *Danube* in order to joyn with the Cham of *Tartary*.

Vienna, August 30. We have an account that the 27th Inſtant the Imperial Army paſſed the Rivers *Gran* and *Ipol* with a reſolution to march towards the Enemy; There are ſome Letters which ſay, that the Seraſquier Baſſa upon notice of it, had quitted his Camp between *Vaccia* and *Peſt* and repaſſed the *Danube*. They write from *Croatia* that General *Leſlie* was come back to *Turanowitz*, and that the Croats who were with him in his late Expedition, were gone home with their Plunder, but had promiſed to return very ſuddainly to the Camp in a greater number. The Priſoners that have been brought hither from *Newheuſel* do all declare that above 5000 perſons were
